

## CONTENTS

<b>OVERVIEW</b>	<b>1</b>
Introduction	1
Source Reduction Alternatives	1
Recycling Alternatives	2
Tire Combustion	3
Tire Pyrolysis	4
 <b>PART I : MARKETS FOR SCRAP TIRES</b>	
 <b>EXECUTIVE SUMMARY</b>	 <b>8</b>
The Scrap Tire Problem	8
Source Reduction Alternatives	13
Recycling Alternatives	14
Tire to Energy Alternatives	15
Pyrolysis Alternatives	15
Barriers to Increased Scrap Tire Utilization	16
Options for Mitigating the Scrap Tire Problem	18
Study Conclusions	19
 <b>1. ASSESSMENT OF PRESENT SITUATION</b>	 <b>21</b>
Introduction	21
Generation of Waste Tire	22
Environmental Problems Associated with Waste Tire Stockpiles	24
Source Reduction of Waste Tires	29
Disposal of Waste Tires	31
Utilization Alternatives	35
 <b>2. MARKET BARRIERS TO WASTE TIRE UTILIZATION</b>	 <b>69</b>
Introduction	69
Rubber Asphalt Paving Systems	75
Combustion	77
Pyrolysis	83

<b>3. OPTIONS FOR MITIGATING THE WASTE TIRE PROBLEM</b>	<b>84</b>
Introduction	84
Regulatory Options–Based on Existing State Programs	85
Other Regulatory and Non-Regulatory Options	90

<b>4. CONCLUSIONS</b>	<b>95</b>
-----------------------	-----------

## **PART II : TIRES FOR FUEL AND TIRE PYROLYSIS**

<b>EXECUTIVE SUMMARY</b>	<b>121</b>
Technical Approach	122
Results	123

<b>1. INTRODUCTION</b>	<b>130</b>
1.1 Waste Tire Generation and Disposal	131
1.2 Markets for Tire As Fuel	140
1.3 State Waste Tire Disposal Programs	141
1.4 Methodology	146
1.5 References	148

<b>2. OVERVIEW OF PROCESS UNITS BURNING TIRES FOR FUEL</b>	<b>150</b>
2.1 Kilns	151
2.2 Boilers	151
2.3 References	166

<b>3. DEDICATED TIRES-TO-ENERGY FACILITIES</b>	<b>168</b>
3.1 Industry Description	168
3.2 Process Description	170
3.3 Emissions, Control Techniques and Their Effectiveness	175
3.4 Other Environmental and Energy Impacts	184
3.5 Cost Considerations	185
3.6 Conclusions	187
3.7 References	188

<b>4. TIRE AND TDF USE IN PORTLAND CEMENT KILNS</b>	<b>189</b>
4.1 Industry Description	192
4.2 Process Description	197
4.3 Emissions, Control Techniques and Their Effectiveness	207
4.4 Other Environmental and Energy Impacts	222
4.5 Cost Considerations	223

4.6	Conclusions	224
4.7	References	225
<b>5.</b>	<b>TDF AS FUEL IN WASTE WOOD BOILERS AT PULP AND PAPER MILLS</b>	<b>227</b>
5.1	Industry Description	228
5.2	Process Description	231
5.3	Emissions, Control Techniques and Tire Effectiveness	234
5.4	Other Environmental and Energy Impacts	251
5.5	Cost Considerations	251
5.6	Conclusions	252
5.7	References	253
<b>6.</b>	<b>TIRES AND TDF AS SUPPLEMENTAL FUEL IN ELECTRIC UTILITY BOILERS</b>	<b>256</b>
6.1	Industry Description	256
6.2	Process Description	256
6.3	Emissions, Control Techniques and Their Effectiveness	263
6.4	Other Environmental and Energy Impacts	278
6.5	Cost Considerations	278
6.6	Conclusions	278
6.7	References	281
<b>7.</b>	<b>USE OF TDF AS A SUPPLEMENTAL FUEL AT OTHER INDUSTRIAL FACILITIES</b>	<b>283</b>
7.1	Description	283
7.2	Process Description	286
7.3	Emissions, Control Techniques and Their Effectiveness	287
7.4	Other Environmental and Energy Impacts	287
7.5	Cost Considerations	287
7.6	Conclusions	290
7.7	References	291
<b>8.</b>	<b>SCRAP TIRE PYROLYSIS</b>	<b>292</b>
8.1	Process Description	293
8.2	Specific Reactor Types	299
8.3	Environmental Impacts	304
8.4	Other Environmental and Energy Impacts	307
8.5	Cost Considerations	311
8.6	Conclusions	214
8.7	References	316
