

CONTENTS

1. Introduction to Polymer Science	1
2. The Compounding and Vulcanization of Rubber	19
3. Fillers: Carbon Black and Nonblack	51
4. Processing and Vulcanization Tests	87
5. Physical Testing of Vulcanizates	114
6. Natural Rubber	152
7. Styrene-Butadiene Rubbers	178
8. Polybutadiene Rubber	199
9. Ethylene/Propylene Rubber	220
10. Butyl and Chlorobuty TM Rubber	249
11. Synthetic Polyisoprene	274
12. Nitrile and Polyacrylate Rubbers	302
13. Neoprene and Hypalon [®]	322
14. Polysulfide Rubbers	349
15. Silicone Rubber	368
16. Fluorocarbon Rubbers	407
17. Urethane Elastomers	440
18. Latex and Foam	459
19. Reclaimed Rubber	496
20. Rubber-Related Polymers	
I. Thermoplastic Elastomers	515
II. Poly (vinyl chloride)	534
III. Polyethylene	555
Appendix The Literature of Rubber	582
Index	595
