

CONTENTS OF VOLUME IV

	<i>Page</i>
Preface	v
Outline of IRC '75 Proceedings	vii

/ CHEMISTRY AND PHYSICS OF NATURAL RUBBER (i)

Molecular Weight and Other Properties of Natural Rubber: A Study of Clonal Variations <i>A. Subramaniam</i>	3
Some Observations on Storage Hardening of Natural Rubber <i>M. J. Gregory and A. S. Tan</i>	28
Rheological Studies of Raw Elastomers with the Mooney Viscometer <i>E. L. Ong and A. Subramaniam</i>	39
Ageing Resistance of Fifty-year-old Natural Rubber (Stark Rubber) <i>H. Kaneko</i>	61
Oxidation of Peroxide-cured Natural Rubber Vulcanisates in the Presence of Metal Compounds <i>D. C. Blackley and Mahmood bin Abdul Kadir</i>	82

CHEMISTRY AND PHYSICS OF NATURAL RUBBER (ii)

Dynamic and Related Properties of Natural Rubbers <i>G. T. Knight and A. S. Tan</i>	115
High Damping Low Creep Rubbers Based on Natural Rubber <i>C. Metherell and J. F. Smith</i>	140
Study of Ozone Resistance of SMR Vulcanisates <i>I. Simek, E. Spirk, J. Bina, A. Lodes and L. Obertova</i>	163
Friction and Wear Properties of Tyres <i>E. Southern</i>	175

Mechanisms of Heat Build-up Failure in Tyres R. D. V. Bennett, H. Ceato, G. J. Lake, R. M. Rollason and G. A. Pittman	191
---	-----

CHEMICAL MODIFICATIONS

Chemical Modification of Natural Rubber: Past, Present and Future D. Barnard, K. Dawes and P. G. Mente	215
Graft Copolymerisation of Methacrylamide in Natural Rubber Latex D. R. Burfield and S. C. Ng	235
New Aspects of Natural Rubber Graft Copolymers D. S. Campbell, D. E. Loeber and A. J. Tinker	249
Surface Bromination of Natural Rubber Vulcanisates for Improvement in Performance Characteristic V. A. Orlov and E. E. Rostovtseva	263
Changes Occurring in Natural Rubber Through the Action of Chlorosulphonyl Isocyanate R. Pautrat, B. Metivier and J. Marteau	267

DEVELOPMENTS IN PROCESSING

Continuous Coagulation of Latex J. B. McIntosh and B. C. Wilkinson	283
Continuous Heat Gelation of Latex – A Potentially Cost-Effective Processing Technique for SMR Cheong Sai Fah and Lim Fong Peng	295
Latex Custom Compounding and Integration of Natural Rubber Production with Manufacture N. P. Wong, E. H. Low, C. O. Ong and K. P. Ng	310
Recent Developments in Cyclised Rubber and Latex Crepe Production in Sri Lanka M. Nadarajah, A. Coomarasamy, G. Varathungarajan, R. Tharmalingam, H. Narangoda and P. P. Jayasinghe	321

INDUSTRIAL MICROBIOLOGY

A Composite Preservation System for Hevea Latex C. K. John, M. Nadarajah, P. S. Rama Rao, C. M. Lau and C. S. Ng	339
--	-----

Influence of Micro-organisms on Coagulation of Skim Latex <i>Soewarti Soeseno and Moh. Mansjoer</i>	358
Treatment of Effluents from Rubber Processing Factories <i>C. D. Ponniah, W. H. Chick and C. M. Seow</i>	367
Malodorous Vapours from a Natural Rubber Processing Factory <i>L. M. Gan, C. T. Poh and H. B. Goh</i>	389
