

CONTENTS

RUBBER'S SPECIAL CASE	3
MAN-MADE RUBBER	4
INFLUENCE OF PROCESSING	4-5
Group 1 Elasticity	6-8
Plasticity	
Viscosity	
Hardness	
Group 2 Tensile Strength	9-10
Compressive Strength	
Shear Strength	
Brittleness	
Group 3 Elastic Limit	11
Elongation at Break	
Group 4 Resilience	12-13
Hysteresis	
Rolling Resistance	
Heat Build-up	
Group 5 Energy Storage Capacity	14
Group 6 Abrasion Resistance	15-16
Tear Resistance	
Chafing	
Chunking	
Group 7 Friction	17
Lubrication	
Group 8 Adhesion	18
Tear-down	
Pull-out	

Group 9	Solubility Swelling	19
Group 10	High Temperature Low Temperature	20
Group 11	Diffusion Permeability	21
Group 12	Electrical Conductivity Electrical Resistance	22
Group 13	Vibration Excitation Transmission Reflection Insulation Absorption	23
Group 14	Chemical Resistance Contamination Staining	24
Group 15	Heat Ageing Oxygen Ageing (oxidation and ozone-isation)	25
Group 16	Inflammability	26
