

## CONTENTS

### **PART I. GENERAL CONSIDERATIONS**

- |   |    |
|---|----|
| 1. NATURAL RUBBER AND SYNTHETIC RUBBER-LIKE MATERIALS | 1  |
| 2. ECONOMICS OF SYNTHETIC ELASTIC MATERIALS           | 17 |

### **PART II. CHEMICAL AND PHYSICAL BACKGROUND OF SYNTHETIC ELASTIC MATERIALS**

- |   |     |
|---|-----|
| 3. TERMINOLOGY  | 41  |
| 4. HISTORICAL BACKGROUND OF SYNTHETIC ELASTICS        | 52  |
| 5. CHEMICAL BEHAVIOUR AND STRUCTURE OF NATURAL RUBBER | 67  |
| 6. RAW MATERIALS: ALCOHOL AND ACETYLENE               | 76  |
| 7. RAW MATERIALS – PETROLEUM                          | 98  |
| 8. POLYMERIZATION                                     | 122 |
| 9. COPOLYMERIZATION                                   | 141 |
| 10. EMULSION POLYMERIZATION                           | 152 |

### **PART III. TECHNOLOGY OF SYNTHETIC ELASTIC MATERIALS**

- |  |     |
|--|-----|
| 11. ELASTOMERS—S.K.B. AND BUNA RUBBERS                 | 171 |
| 12. ELASTOMERS—PERBUNAN, HYCAR O.R., CHEMIGUM          | 197 |
| 13. ELASTOMERS—NEOPRENE                                | 222 |
| 14. ELASTENES—POLYISOBUTYLENE, BUTYL RUBBER            | 247 |
| 15. THIOPLASTS   | 272 |
| 16. ETHENOID ELASTICS                                  | 290 |
| 17. ETHYL CELLULOSE                                    | 313 |
| 18. SOME ADDITIONAL COMPARATIVE PROPERTIES OF ELASTICS | 320 |
