

## CONTENTS

### PART I : GENERAL CONSIDERATIONS

I.	RUBBER IN MODERN LIFE	1
II.	HISTORY OF RUBBER	9
III.	SOURCES OF NATURAL RUBBER	26
IV.	LATEX	32
V.	COMMERCIAL RUBBER	51

### PART II : SCIENTIFIC ASPECTS OF RAW RUBBER

VI.	CHEMICAL PROPERTIES OF RUBBER	65
VII.	PHYSICAL PROPERTIES OF RUBBER	88
VIII.	CHEMICAL COMPOSITION OF RUBBER	98
IX.	STRUCTURE OF RUBBER	103

### PART III : PROCESSING OF RUBBER

X.	MACHINERY AND PROCESSES	117
XI.	PLASTICIZATION OF RUBBER	142
XII.	COMPOUNDING OF RUBBER	154
XIII.	VULCANIZATION	182
XIV.	ACCELERATORS	202
XV.	AGEING OF RUBBER	222
XVI.	DIRECT USE OF LATEX	235
XVII.	RECLAIMED RUBBER	268
XVIII.	HARD RUBBER	295

### PART IV : SCIENTIFIC ASPECTS OF VULCANIZED RUBBER

XIX.	VULCANIZATION THEORY	303
XX.	ACCELERATOR AND ANTIOXIDANT THEORY	319
XXI.	REINFORCEMENT OF RUBBER	328
XXII.	PHYSICAL TESTING OF RUBBER	345
XXIII.	ANALYSIS OF RUBBER	357

## **PART V : TECHNOLOGY OF RUBBER**

XXIV.	PRODUCTION OF MOULDS AND MOULDED ARTICLES	385
XXV.	CALENDERED SHEET	397
XXVI.	EXTRUSION	404
XXVII.	FABRICS IN RUBBER MANUFACTURE	410
XVIII.	PROOFING	416
XXIX.	TYRES	428
XXX.	RUBBER HOSE AND PIPING	445
XXXI.	BELTING	452
XXXII.	CABLES	458
XXXIII.	BONDING OF RUBBER TO METALS	467
XXXIV.	RUBBER SOLUTIONS	476
XXXV.	SPONGE RUBBER	479
	REFERENCES—LIST OF ABBREVIATIONS	489
	INDEX	490
