

CONTENTS

Chapter I. Basic principles	19
Chapter II. Standards of measurement	36
Chapter III. Standardisation	67
Chapter IV. Manufacture of gauges	93
Chapter V. Optical projectors and microscopes	107
Chapter VI. Linear measurement	130
Chapter VII. Angular measurement	155
Chapter VIII. Circular division	178
Chapter IX. Straightness flatness and squareness	201
Chapter X. Alignment testing	221
Chapter XI. Screw threads	237
Chapter XII. Screw thread measurement	256
Chapter XIII. Surface texture	274
Chapter XIV. Gauge and instrument design	283
Chapter XV. Miscellaneous measurements	305
Chapter XVI. Automatic dimensional control	324
Bibliography	343
Index	351
