

**CONTENTS**

Introduction	1	
1. Sampling systems		3
2. Measurement of density or specific gravity		36
3. Measurement of humidity		57
4. Measurements employing nuclear techniques		81
5. On – line instruments for ASTM procedures		97
6. Measurement of chemical composition		120
7. Measurement of viscosity		263
Appendix		276
Index		279
