

**CONTENTS**

**Part one elementary mould design**

1. Mould making	3
2. General mould construction	38
3. Ejection	78
4. Feed system	135
5. Parting surface	168
6. Mould cooling	182
7. Worked examples of simple injection moulds	209

**Part two intermediate mould design**

8. Splits	221
9. Side cores and side cavities	263
10. Moulding internal undercuts	303
11. Moulds for threaded components	319
12. Multi – daylight moulds	318
13. Runnerless moulds	384
Glossary	402
Index	411
