## FLEXOGRAPHIC PRINTING

|                                                       |    |
|-------------------------------------------------------|----|
| Introduction .....                                    | 1  |
| Press Types .....                                     | 1  |
| Exercise 1 .....                                      | 2  |
| Machine Controls .....                                | 3  |
| Exercise 2 .....                                      | 3  |
| <b>Machine Guards</b> and Safety.....                 | 3  |
| Exercise 3 .....                                      | 4  |
| Rolls and Gears .....                                 | 4  |
| Exercise 4 .....                                      | 6  |
| Exercise 5 .....                                      | 6  |
| Unwind Equipment .....                                | 6  |
| Exercise 6 .....                                      | 7  |
| Exercise 7 .....                                      | 7  |
| Unwind Tension Control .....                          | 7  |
| Exercise 8 .....                                      | 8  |
| Rewind Systems .....                                  | 8  |
| Exercise 9 .....                                      | 8  |
| Rewind Tension Control .....                          | 9  |
| Exercise 10.....                                      | 10 |
| Drying Systems .....                                  | 10 |
| Exercise 11.....                                      | 11 |
| Exercise 12.....                                      | 11 |
| Press Maintenance .....                               | 12 |
| Exercise 13.....                                      | 13 |
| <b>Work Docket</b> .....                              | 13 |
| Exercise 14.....                                      | 14 |
| <b>Printing Sequence</b> .....                        | 14 |
| Exercise 15 .....                                     | 14 |
| Mounting and Proofing .....                           | 14 |
| Exercise 16.....                                      | 16 |
| Exercise 17.....                                      | 16 |
| Exercise 18.....                                      | 16 |
| Exercise 19.....                                      | 16 |
| Press Wash-up Procedure .....                         | 17 |
| Exercise 20.....                                      | 17 |
| Care and Use of Rollers .....                         | 17 |
| Exercise 21.....                                      | 18 |
| <b>Pull</b> or Draw Rolls .....                       | 18 |
| Exercise 22.....                                      | 18 |
| Printing Troubles .....                               | 19 |
| <b>Exercises</b> 23 and 24 .....                      | 20 |
| Static Elimination Associated with Web Fed Machines.. | 20 |
| Exercise 25 - Static Eliminators .....                | 21 |

**FLEXOGRAPHIC PRINTING (cont'd)**

|                                                                                       |    |
|---------------------------------------------------------------------------------------|----|
| Register Control.....                                                                 | 22 |
| <b>Exercise 26</b> .....                                                              | 22 |
| Use of the Micrometer.....                                                            | 23 |
| <b>Exercise 27</b> - Use of the Micrometer,.....                                      | 23 |
| <b>Exercise 28</b> - Plate Thickness.....                                             | 23 |
| <b>FLEXOGRAPHIC PLATE PREPARATION</b> ,.....                                          | 25 |
| Introduction .....                                                                    | 25 |
| <b>Types</b> of Printing Images.....                                                  | 26 |
| Production of Thermosetting Moulds,.....                                              | 27 |
| <b>Exercise 29</b> - <b>Forme</b> Preparation .....                                   | 27 |
| <b>Exercise 30</b> - Moulding the Matrix,.....                                        | 28 |
| <b>Exercise 31</b> - Preparing a Matrix .....                                         | 28 |
| Preparation of Rubber Stereotypea,.....                                               | 29 |
| <b>Exercise 32</b> - <b>Natural</b> Rubber .....                                      | 29 |
| <b>Exercise 33</b> - Plate <b>Moulding</b> Rubber<br>Stereotypes.....                 | 30 |
| <b>Exercise 34</b> - Plate Moulding Rubber<br>Stereotypes.....                        | 31 |
| Use of Shrinkage Control Materials in the Manufac-<br>ture of Rubber Stereotypes..... | 31 |
| <b>Exercise 35</b> - Plate Preparation Using<br>Shrinkage Controlled Rubbers .....    | 31 |
| Hand Cut Rubber Dies .....                                                            | 31 |
| Production of Thermoplastic Printing Platea,.....                                     | 32 |
| <b>Exercise 36</b> - Thermoplastic Moulding<br>Materials .....                        | 32 |
| <b>Exercise 37</b> - Moulding a Thermoplastic<br>Printing Plate .....                 | 33 |
| <b>Exercise 38</b> - Moulding a Thermoplastic<br>Plate .....                          | 33 |
| Finishing Operations for Plastic and Rubber Plates ..                                 | 34 |
| <b>Exercise 39</b> - Edge Trimming Finished<br>Plates .....                           | 34 |
| <b>Exercise 40</b> - Back <b>Grinding</b> Plastic and<br>Rubber Plates .....          | 34 |
| <b>Exercise 41</b> - Routing .....                                                    | 35 |
| Hardness of Rubbers and Plastics .....                                                | 35 |
| <b>Exercise 42</b> - Rubber Hardness Using a<br>Shore Durometer.....                  | 36 |
| Storage and Care of Printing Plates .....                                             | 36 |
| <b>Exercise 43</b> - Plate Storage .....                                              | 37 |
| <b>FUNDAMENTALS OF FLEXOGRAPHIC INKS</b> .....                                        | 38 |
| Resins and <b>Binders</b> .....                                                       | 41 |
| <b>Exercise 44</b> - Resin Colour .....                                               | 41 |
| <b>Exercise 45</b> - Melting Range of a Resin by<br>the Capillary Tube.....           | 42 |

## FUNDAMENTALS OF FLEXOGRAPHIC INKS (cont'd)

|                                                                                       |    |
|---------------------------------------------------------------------------------------|----|
| Solvents .....                                                                        | 42 |
| Exercise 46 - Dilution Ratio.....                                                     | 43 |
| Exercise 47 - Solvent Colour .....                                                    | 43 |
| Exercise 48 - Solvent Odour .....                                                     | 44 |
| Pigments .....                                                                        | 44 |
| Exercise 49 - Solvent Bleeding .....                                                  | 45 |
| Exercise 50 - Pigment Wetting Properties....                                          | 45 |
| Soluble Dyestuffs .....                                                               | 45 |
| Exercise 51 - Dye Solubility .....                                                    | 46 |
| Drying Time .....                                                                     | 46 |
| Exercise 52 - Drying Time of Inks .....                                               | 46 |
| <b>Drawdown</b> Test.....                                                             | 47 |
| Exercise 53 - <b>Drawdown</b> Test .....                                              | 47 |
| Exercise 54 - Gloss of Inks by Proof Press<br>and <b>Drawdown</b> .....               | 48 |
| Exercise 55 - Effect of Paper on Gloss.....                                           | 48 |
| Colour Comparison and Colour Strength .....                                           | 49 |
| Exercise 56 - Colour Comparison .....                                                 | 49 |
| Exercise 57 - Colour Comparison .....                                                 | 49 |
| Exercise 58 - To Plot Spectrophotometric<br>Curves of Selected <b>Ink</b> Filma ..... | 49 |
| Viscosity .....                                                                       | 50 |
| <b>Viscometers</b> .....                                                              | 51 |
| Exercise 59 - Viscosity of Flexographic Inks..                                        | 51 |
| Opacity .....                                                                         | 52 |
| Exercise 60 - Opacity by <b>Drawdown</b> .....                                        | 52 |
| Exercise 61 - Preparation of Opaque and<br>Transparent Tints .....                    | 52 |
| <b>Ink Coverage</b> .....                                                             | 52 |
| Exercise 62 - <b>Ink</b> Estimation .....                                             | 53 |
| Specific Gravity of Flexographic Printing <b>Inks</b> .....                           | 54 |
| Exercise 63 - Specific Gravity Determination .                                        | 54 |
| Exercise 64 - Specific Gravity by An Alter-<br>native Method .....                    | 54 |
| Relative Humidity Measurement .....                                                   | 55 |
| Exercise 65 - Wet and Dry Bulb Hygrometer. .                                          | 55 |
| Exercise 66 - Temperature Variation Through-<br>out the Printing Departments .....    | 56 |
| Oil <b>Resistance</b> .....                                                           | 56 |
| Exercise 67 - Oil Resistance .....                                                    | 56 |
| Solvent Resistance .....                                                              | 56 |
| Exercise 68 - Solvent Resistance .....                                                | 56 |
| Water Bleeding of Inks .....                                                          | 57 |
| Exercise 69 - Testing for Water Bleeding<br>Resistance .....                          | 57 |
| Soap Bleeding .....                                                                   | 57 |
| Exercise 70 - Soap Resistance.....                                                    | 57 |

## FUNDAMENTALS OF FLEXOGRAPHIC INKS (cont'd)

|                                                                      |    |
|----------------------------------------------------------------------|----|
| Resistance to Fats. Acids and Alkalis .....                          | 58 |
| Exercise 71 - Testing for Fat Resistance .....                       | 58 |
| Exercise 72 - Testing for Acid Resistance .....                      | 58 |
| Exercise 73 - Alkali Resistance .....                                | 58 |
| Bleeding into Spirit Varnish .....                                   | 59 |
| Exercise 74 - Bleeding into Spirit Varnish .....                     | 59 |
| Testing Prints for Waxing .....                                      | 59 |
| Exercise 75 - Waxing Test, .....                                     | 59 |
| Effect of Outdoor Exposure on Prints .....                           | 60 |
| Exercise 76 - Outdoor Exposure .....                                 | 60 |
| Heat Resistance of Inks .....                                        | 60 |
| Exercise 77 - Heat Resistance .....                                  | 60 |
| Light Resistance .....                                               | 61 |
| Exercise 78 - Light Resistance .....                                 | 61 |
| Testing for Print Odour .....                                        | 61 |
| Exercise 79 - Testing for Print Odour .....                          | 62 |
| Abrasion Testing .....                                               | 62 |
| Exercise 80 - Rub Resistance by Hand .....                           | 62 |
| Exercise 81 - Alternative Hand Technique<br>for Rub Resistance ..... | 62 |
| Effect of Substrate Colour on Hue .....                              | 63 |
| Exercise 82 - Effect of Paper Stock on Hue .....                     | 63 |
| Effect of <b>Illumination</b> on Hue .....                           | 63 |
| Exercise 83 - Illumination and Hue .....                             | 64 |
| <b>Storage of Inks</b> .....                                         | 64 |
| Exercise 84 - <b>Ink Storage</b> .....                               | 64 |
| Colour Matching Terms .....                                          | 65 |
| Subtractive Colour .....                                             | 65 |
| Exercise 85 - Subtractive Colour .....                               | 66 |
| Additive Colour .....                                                | 67 |
| Exercise 86 - Additive Colour .....                                  | 67 |
| Colour Wheel .....                                                   | 67 |
| Exercise 87 - Preparing a Colour Wheel .....                         | 68 |
| Colour Matching .....                                                | 68 |
| Exercise 88 - Colour Progressives .....                              | 70 |
| Exercise 89 - Colour Matching .....                                  | 70 |
| Exercise 90 - Colour Matching .....                                  | 71 |
| IMPOSITION .....                                                     | 72 |
| Introduction .....                                                   | 72 |
| Definition of Marginal Terms .....                                   | 72 |
| Imposition Terms .....                                               | 73 |
| Exercise 91 - <b>Bookwork</b> Margins .....                          | 73 |
| Imposing - Product Sizes. Shapes and Forms .....                     | 74 |
| Exercise 92 - Ruling Out a Sheet of 16 Labels .....                  | 74 |
| Exercise 93 - Four Page Backing-up<br>Imposition Schemes .....       | 75 |

**IMPOSITION (cont'd)**

|                                                     |    |
|-----------------------------------------------------|----|
| <b>Exercise 94 - Impositing</b> for Sixteen Page    |    |
| Half Sheet Work and Turn .....                      | 75 |
| <b>Exercise 95 - Bookwork</b> Margins .....         | 76 |
| <b>Exercise 96 - Eight Page Imposition</b> Rule Up  |    |
| Including Page Margins and Trims .....              | 77 |

| <b>Exercise 110 - Identification of Esparto</b>     |    |
| Grass or Mechanical Wood, Fibre .....               | 91 |
| <b>Exercise 111 - Herzberg Stain Test</b> .....     | 91 |
| Gloss .....                                         | 92 |
| <b>Exercise 112 - Visual Comparison of Gloss</b> .. | 92 |
| <b>Exercise 113 - Instrumental Measurement</b>      |    |
| of Gloss .....                                      | 92 |
| <b>Regularity of Furnish and Opacity</b> .....      | 93 |
| <b>Exercise 114 - Regularity of Furnish</b> .....   | 93 |

## PRINTING SURFACES FOR FLEXOGRAPHY (cont'd)

|                                                                                  |     |
|----------------------------------------------------------------------------------|-----|
| Exercise 115 - Opacity Using the<br>P.A.T.R.A. Opacity Guide .....               | 93  |
| Surface Strength of Papers.....                                                  | 94  |
| Exercise 116 - <b>Abrasion</b> Testing of Paper .                                | 95  |
| Exercise 117 - Dust Test .....                                                   | 95  |
| Two Sidedness of Paper .....                                                     | 95  |
| Exercise 118 - Determining the Right and<br>Wrong Sides .....                    | 96  |
| Strength and Durability.....                                                     | 96  |
| Exercise 119 - Strength Testing .....                                            | 97  |
| Finish.....                                                                      | 97  |
| Exercise 120 - Paper Finish .....                                                | 97  |
| <b>Ink Absorbency</b> .....                                                      | 98  |
| Exercise 121 - Printing Test for<br>Absorbency .....                             | 98  |
| Aluminium Foils .....                                                            | 99  |
| Exercise 122 - Foil Caliper .....                                                | 99  |
| Exercise 123 - Gloss of Foils .....                                              | 100 |
| Introduction to Plastics and Rubbers .....                                       | 100 |
| Characteristic Chemical and Physical Properties<br>of Plastics and Rubbers ..... | 101 |
| Exercise 124 - The Effect of Heat on<br>Various Plastics .....                   | 101 |
| Exercise 125 - Rub Resistance .....                                              | 102 |
| Exercise 126 - Affinity for Molten Metal...                                      | 102 |
| Exercise 127 - Solvent Resistance .....                                          | 102 |
| Plasticisere and Fillers.....                                                    | 103 |
| Exercise 128 - Plastic Fillers and<br>Plasticisers.....                          | 104 |
| Plastic Films .....                                                              | 104 |
| Exercise 129 - Moisture Content of<br>Plastic Films.....                         | 106 |
| Exercise 130 - Opacity of Plastic Films...                                       | 107 |
| Laminates .....                                                                  | 107 |
| Exercise 131 - Grease and Oil Resistance .                                       | 107 |
| Continuity of Coatings on Nylon Films .....                                      | 108 |
| Exercise 132 - Continuity of Coating .....                                       | 108 |
| Coating Adhesion Test for Plastic Films .....                                    | 108 |
| Exercise 133 - Scotch Tape Test for<br>Coating Adhesion .....                    | 108 |
| Surface Contamination .....                                                      | 109 |
| Exercise 134 - Comparative Testing of<br>Surface Contaminants .....              | 109 |
| Solvent Evaporation .....                                                        | 110 |
| Exercise 135 - Rates of Solvent Evaporation                                      | 110 |
