

## CONTENTS

**Part one paper – based packaging****Chapter**

1. Paper and board – making	1.30
2. Wrapping and packaging papers	1.20
3. Multiwall paper sacks	1.40
4. Folding box – board cartons	1.54
5. Rigid boxes	1.77
6. Solid and corrugated fibreboard cases	1.88
7. Fibre drums	1.106
8. Moulded pulp containers	1.116

**Part two metal – based packaging**

1. Metal packaging	2.3
2. Metal cans	2.13
3. Composite containers	2.52
4. Aerosol packaging	2.73
5. Metal drums and kegs	2.84
6. Collapsible tubes	2.97
7. Metal foil packaging	2.102

**Part Three glass and plastics – based packaging**

1. Glass containers	3.3
2. Moulded plastics containers	3.25
3. Packaging with flexible barriers	3.44
4. Sacks made from plastics film	3.74
5. Plastics drums and crates	3.94
6. Closures and dispensing devices for glass and plastics containers	3.107

**Part four wood and textile – based packaging**

1. Wood and wood products in packaging	4.3
2. Timber and plywood cases and crates	4.10
3. Wooden casks and plywood kegs	4.20
4. Hardboard and softboard	4.25
5. Pallets and unit loads	4.45
6. Textile sacks and bags	4.64
7. Bales and baling	4.75

**Part five ancillary materials**

1. Paper plastics and fabric sealing tapes	5.3
2. Strapping and stapling	5.9

3. Labels and labelling	5.204.
4. Adhesives in packaging	5.31
5. Package cushioning systems	5.44
