

**CONTENTS**

1. Introduction	1
2. Standard Portland Cement	19
3. Special Cements	41
4. Mineral Aggregates, Admixtures, and Water	55
5. Theories of Proportioning	90
6. Applied Proportioning	121
7. Factors Affecting Concrete Strengths	146
8. Making of Concrete	157
9. Placing, Finishing, and Curing concrete	178
10. Durability, Workability, and Waterproofness	211
11. Field control of concrete	231
12. Specifications	238
13. Sampling	248
14. Testing	258
Index	431
