

CONTENTS

Preface	10
Introduction	11
1. Chief properties of building materials	17
2. Materials and components from natural rock	31
3. Ceramic materials and items	57
4. Materials and components from mineral melts	99
5. Mineral binders	117
6. Concretes	168
7. Building mortars	224
8. Stone products iron mineral binding materials	236
9. Metals and metal components	284
10. Reinforced concrete products	313
11. Manufacture of reinforced concrete components	328
12. Woodworking	366
13. Heat – insulating and acoustic materials components	392
14. Organic binders and bitumen – and – tar - based materials	419
15. Polymers and polymer – based materials and components	444
16. Varnishes , paints and wallpaper	485
Index	497
