

CONTENTS

Part 1. Sill, girder and floor framing

Unit

1. Characteristics of wood	1
2. Types of house framing	10
3. Wood sill construction	17
4. Girders	24
5. Columns	35
6. Floor joists	41
7. Bridging	52
8. Framing floor openings	58
9. Subflooring	64

Part 2. Side walls and sheathing

Unit

10. Related technical information	71
11. Framing wall openings	85
12. Sheathing	92
13. Scaffolds	98

Part 3. Roof framing

Unit

14. Types of roof framing	104
15. Common rafters	115
16. Hip and valley rafters	127
17. Dormers	143
18. Roofs of unequal pitch	154
19. Special roof problems	167

Part 4. Bays and overhangs

Unit

20. Bays and overhangs	174
21. Partition framing	180
22. Furring grounds and backing	187
23. Stair framing	196

Part 5. Insulation

Unit

24. Insulation	209
