

CONTENTS

Section

1. General principles of ventilation	1-1
2. Dilution ventilation	2-1
3. Ventilation for heat control	3-1
4. Hood design	4-1
5. Specific operations	5-1
6. Design procedure	6-1
7. Make – up and recirculated air	7-1
8. Construction specifications	8-1
9. Testing of ventilation systems	9-1
10. Fans	10-1
11. Air cleaning devices	11-1
12. Bibliography	12-1
13. Appendix	13-1
Index	14-1
