

CONTENTS

Chapter

1. Fundamentals	1
2. Ventilation system equipment – design parameters / specifications	77
3. Industrial ventilation for process buildings	193
4. Local exhaust ventilation – dust control	271
5. Design of ventilation systems for fume control	359
6. Specialized ventilation techniques	439
Appendix A Threshold limit values	545
Appendix B Ventilation system design charts	565
Appendix C Typical technical specifications with questionnaires	583
Appendix D Dust control design charts	711
Appendix E Electric arc furnace fume system design	723
Subject index	741
