Glossary	11
Safety Precautions	13
CHAPTER	
I An Introductory Fiber Glass Project	15
II Glass Fiber and Plastic Resin	24
III Materials for Laminating	33
IV Molding Methods	44
V Constructing the Mold	57
VI Finishing and Surfacing the Mold	64
VII Laminating Methods	67
VIII Applying Gel Coats	70
IX Applying Lay –Up Coats	72
X Patching Fiber Glass Laminates	79
XI Removing from the Mold, Trimming, and Finishing	82
XII Decorating Techniques	85
XIII Considerations in Planning	88
Introduction	92
Single or Double Flat Molds	93
Shallow Curved Molds	97
Shallow and medium Depth Rectangular Molds	103
Medium Depth Round Molds	108
Duplication Molds	112
Laminated Chair	117
Deep Rectangular Molds	126
Irregular Molds	130
Deep Cylindrical Molds	132
Half-Round Split Molds	142
Appendixes	
Appendix A Resin and Reinforcement characteristics and Uses	146
B Suggested Resin Specifications for Various Applications	148
C Manufacturers of Fiber Glass, Resins and Allied materials	150
D Sources of Supply	152
Reference List	153
