

CONTENTS

I	The Photographic Developer: Gneral Considerations	13
II	The Photographic Developer: Purity of Chemicals and Water	47
III	The Photographic Developer: The Chemistry of the Developing Agents	63
IV	The Photographic Developer: Mechanism Of Development	89
V	The Photographic Developer: Practical Considerations and Fromul	133
VI	Fixation and Stabilzation	183
VII	Washing, Derying and Other Processing Stages	201
VIII	Colour Processing: The colour Development Reaction	225
IX	Colour Processing: Processes Based on the Normal Colour Development Reaction	257
X	Colour Processing: Processes not Based on the Normal Colour Development Reaction	275
	Appendix I	287
	Appendix II	295
	Subject Index	295
	Patent Index	317
	Author Index	321
