

CONTENTS

CHAPTER

| | |
|--|-----|
| 1. Archaeological Chemistry | 1 |
| 2. Chemistry-Fundamental Concepts | 6 |
| 3. Analytical Chemistry | 19 |
| 4. Spectroscopy | 31 |
| 5. Radioactivity and nuclear energy | 54 |
| 6. Stone | 79 |
| 7. Building materials | 102 |
| 8. Pottery | 108 |
| 9. Glass, Glaze, and Enamel | 136 |
| 10. Color: Pigments, dyes, and Inks | 167 |
| 11. Metals and coins | 197 |
| 12. The Causes of Decay | 239 |
| 13. Deterioration of Archaeological Materials | 248 |
| 14. Corrosion of Metals | 252 |
| 15. Conservation of Antiquities | 266 |
| 16. Chemical Dating of Bones and fossils | 287 |
| 17. Radiocarbon dating | 298 |
| 18. Potassium-Argon dating | 315 |
| 19. Radiation-Damage dating | 323 |
| 20. Geochemical Survey of Archaeological Sites | 333 |
| 21. Paleotemperatures and Paleoclimates | 341 |
| 22. Authentication of Antiquities | 347 |
| 23. Literature on Archaeological Chemistry | 361 |
| Index | 367 |
