SPECIALreport: fluid flow and rotating equipment

[Apply proven machinery problem-solving strategies](#)

Here's a summary of the approach used by competent machinery engineers

H. P. Bloch

[Matching antisurge control valve performance with integrated turbomachinery control systems](#)

Optimize plant performance by improving compressor efficiency, availability and protection

J. Wilson and A. Sheldon

[Coupling retrofits and upgrades](#)

Here are the considerations for applying nonlubricated, high-performance types

M. F. Saunders

[Avoid cavitation in butterfly valves](#)

Use these coefficients to determine safe throttling positions

E. Casado Flores

[Ultrasonic multipath flowmeters for liquid hydrocarbon custody transfer](#)

They reliably meet or exceed demanding accuracy standards

H. Decker

distillation

[Consider the 'inside-out' approach to optimize distillation operations](#)

Economic value can be obtained by involving heat exchanger and tower internal experts in the initial design development

D. Remesat

refining developments/heat transfer

[Rethink placement of preflash drum in crude preheat train network](#)

Strategic location of the preflash drum not only resolves network problems, but, in some cases, reduces operating costs

R. Yahyaabadi

risk management

[Sarbanes-Oxley impacts plant personnel, too](#)

This US regulatory act governing accounting policies also applies to process design and operations

J. T. Beavers

hp impact

[Northeast America's natural gas supply options examined](#)

[Site selection approach assesses wide parameters](#)

[India transitioning to multiple-source energy mix](#)

[Majors commit to funding biofuels, hydrogen technology](#)

[Quick look: status of ULSD refinery production in US](#)

[US refinery chemicals demand to reach \\$3.6 billion in 2010](#)

[NPRA: new US security laws should not subvert HPI's present efforts](#)

[World pump market to reach \\$49 billion by 2016, says new study](#)

editorials

[HPI In Reliability](#)

Basis for bearing protector compliance

[HPI In Europe](#)

Where now for Europe's cleanest-burning diesel?

[HPI In Integration strategies](#)

Managing process simulation to realize value

[HPI In Control](#)

Are there any good APC training programs out there?

[HPI In Water Management](#)

The art of influent clarification

[Letters to the editor](#)

news/products
